MODERNIZATION

Federal EHR Annual Summit

Forging Connections: Empowering Federal EHR End Users

Virtual Event | September 15, 2026

The Federal Electronic Health Record Modernization (FEHRM) office, along with the Department of War, Department of Veterans Affairs, Department of Homeland Security's U.S. Coast Guard, and Department of Commerce's National Oceanic and Atmospheric Administration, are excited to bring together end users of the Federal EHR (including clinicians, nurses, and administrators) and subject matter experts to enhance the Federal EHR to better serve our providers and patients. The theme for this sixth annual summit is **Forging Connections: Empowering Federal EHR End Users**. Register for the summit to hear from Federal leaders and experts; earn continuing education credits; network with your peers; and share your experiences to help drive enhancements to the federal EHR as we forge ahead.

Visit www.fehrm.gov/federal-ehr-annual-summit for up-to-date information.

The Federal EHR Annual Summit is approved for continuing education credits.
More information will be provided during the summit.

Day 1

September 15, 2026

8:30 a.m.–5:15 p.m. Eastern Time

Federal Electronic Health Record Annual Summit 2026

Forging Connections: Empowering Federal EHR End Users

This year's summit is organized by five breakout tracks targeted toward specific end users to provide feedback on relevant Federal EHR capabilities.

CLINICAL OPERATIONS TRACK

Designed for healthcare professionals in acute care, this track offers focused sessions for inpatient, outpatient, and emergency care teams. Explore advancements in clinical practices, innovative treatments, and effective patient management strategies.

ANALYTICS AND DATA TRACK

Tailored for a diverse group of healthcare professionals interested in workflows that support data-driven decisions during deployment and beyond.

HEALTH IT AND INFORMATICS TRACK

Designed for IT professionals and clinicians interested in healthcare technology, this track explores the intersection of medicine and informatics. Engage with experts on the latest in data management, electronic health records, and digital health innovations to enhance patient care and operational efficiency.

WORKFORCE AND CHANGE TRACK

Designed for healthcare leaders interested in supporting end users through change and change requests.

DEPLOYMENT AND TRANSITION TRACK

Designed for recent and future Federal EHR end users, as VA deploys the Federal EHR to additional facilities. This track is designed to alleviate transition challenges, share lessons learned, and prepare for successful Federal EHR adoption.
